To assure the best quality for the group photos and portraits:

- It is imperative that only one photographer takes pictures!!!

Of course other family members and guests can take pictures, but NOT AT THE SAME TIME as the 'official photographer'. In fact, if several people are taking pictures at the same time, the effect will be that people in the group will be looking in different directions

- Concerning make-up: It should be as matt as possible in order to avoid any undesirable effects on the face (flash, sun or other light sources).

- In case of very hot weather: be sure to regularly wipe the perspiration on the face, also to avoid unwanted reflections (this is valid for everyone in the group !)

And after the group photos comes the time of the **photo session**, with just the bride and groom, the witnesses, the children...

Please provide enough space so that there are no people hiding behind !

Important photo moments (entrance to the town/church/hall, exchange of rings, the cut of the cake):

Preferably in "**slow motion**" and, especially when exchanging the rings, **please don't turn around suddenly**, otherwise there will be 2 backs in the pictures!
